Decision in Bennington Case Due-Obsolete Law.

(BY THE ASSOCIATED PRESS-P.M.) WASHINGTON, Dec. 31.—The Senate will, not do very much legislative bus.n.ss this week. It is not expected that the session will occupy more than two days—Thursday and Friday.

House foretast:

The House of Representatives will settle even to work as soon as it meets on Thursday, and possibly before the end of the week, and it will pass the bill providing for the admission of two new States.

The first thing to dispose of is the reference of the President's message, the subject upon which floods of oratory were expended before the holiday recess. General debate has closed, and after a short discussion under the five-minute rule, a vote will be taken upon the only contested point, which is whether the portion of the message relating to insurance shall be referred to the Ways and Means Committee, or

What The Times Has Done in Six Years-1905 was the Pennant-Winner.

HE growth of The Times in popular favor is conclusively shown by the following advertising and circulation

Circulation.-In 1900 the daily average circulation was 27,792; in 1901, 28,777; in 1902, 31,250; in 1903, 36,657; in 1904, 37,702; and in 1905 the daily average for 11 months and 28 days in the year was 43,079 copies. The circulation was never so large and steady as it is now.

SAN FRANCISCO, Dec. 31.—[Exclusive Dispatch.] Mrs. Sadie L. Brownell, grand-daughter of Fresident Tyler, and Paul Kennedy, an employé of the Union Iron Works of this city, were quietly married yesterday. Mrs. Kennedy is the third daughter of Robert Tyler, second son of the late President. She has resided at the New Western Hotel since the beginning of last September, and there met Mr. Kennedy. Mrs. Kennedy has contributed under an assumed name to several of the leading magasines of the East.

"The fact that I am's grand-daughter of a President of the United States will not make any difference in my home surroundings," she said when asked as to her plans. "Nowadays one cannot pass through life on one's own merits, and I will be just as happy to be Mrs. Kennedy as if I were the wife of the President of the United States."

TWO UNION PACIFIC GASOLINE CARS MAY BE ASSIGNED.

Alfred Darlow Says New Self-Propelling Cars Will Take Place of Harriman System and They Intend to Send Two Here.

tising field, played the chaperone par excellence to the crowd of newspaper men brought to the Coast for a Christmas outing by the Union Pacific and Salt Lake recently.

Commenting on the proposed assignment of two or more of the justly famious Union Pacific gasoline motor cars to Southern California territory, Mr. Darlow declared that it is one of the expectations of Harriman traffic managers and operating heads through their use to solve the problem of fast local and branch-line service.

"The tests already made of these motor cars turned out of our shops at Omaha have been so successful and so entirely satisfactory to the management that there is no doubt they will be installed as soon as practicable all over the entire Harriman system," said Mr. Darlow just prior to his departure for his headquarters last week. "At the present time we have them in use on local suburban service out of Omaha, and are watching closely to see where we can use them to best advantage. Aiready orders have been placed in the shops for a number of cars of the type of our No. 2, which will be distributed over the system, especially for branch-line use where the traffic does not pay well for the running of regular steam trains.

"From what I have no doubt from the results shown, to compete very successfully with the electric railways.

"There is a wide and rapidly spreading conviction among our traffic and would be able, I have no doubt from the results shown, to compete very successfully with the electric railways.

"There is a wide and rapidly spreading conviction among our traffic and operating men that the gasoline cas will effectuanty settle, for a considerable time at least, the argument for the electrification of certain branches or divisions of the steam lines. These cars are proving themselves for economy, efficiency and certainty of operation, superior to electric cars. We feel that the time is coming when practi-

cars are proving themselves for economy, efficiency and certainty of operation, superior to electric cars. We feel that the time is coming when practically all local passenger business, especially within a reashable radius of large cities, will be served almost exclusively by these gasoline cars.

"Don't let any one think for a moment that we do not appreciate the importance of this Southern California business. We have watched it grow year by year and we have fostered it and encouraged it and boomed it for all we are worth, until this year, from present indications, I think we are safe in saying that the travel to the Coast will reach unprecedented proportions. The volume of regular westward travel will, of course, be largely swelled by the national convention of the Shriners here next May."

TTUNTER TORN BY DUCK SHOT.

PECULIAR ACCIDENT MAY COST MILES CANE'S LIFE.

While Shooting on Alamitos Bay He Tosses Dead Bird Into Boat, Body Striking and Discharging Gun, Charge from Which Enters

Lying on a cot at the Woodside Hospital in this city, Miles Cane, a ten-ant of the Fred Bixby ranch, near Long Beach, hovers between life and death, the victim of a most peculiar shortless condens. shooting accident.

shooting accident.

In company with five other men,
Cane went out early yesterday morning
to shoot ducks on Alamitos Bay. Some
of the men were on the banks of the
bay, and there were two boats in
use. Cane was alone in one of these. Two men were in the second boat.

The party was haying fine sport, and had made the circle of the lagoons several times. Each had quite a string of ducks, and finally Cane shot an unusually fine duck, which fell near his hoat.

unusually fine duck, which reli near his boat.

He paddled over to it and determined to give it to the man in the other boat. Puilling it out of the water he threw it over to his comrade, and as it fell into the boat it siruck a gun lying on the seat.

The gun was discharged, and the entire charge struck Cane in the breast, tearing a fearful hose close to the later.

Happy Compliments of the season to all our friends and patrons. Store public for the liberal support which has made the year Closed public for the liberal support which has brought to a close one of the most successful in our Today

No matter what your furniture wants, whether it be a single piece or entirely new furnishing for a home, we can undoubtedly save you mensy. We are out of the high-rent district, and are not associated with the high-priced clique. Our rent is less than half what Broadway and Spring street merchants pay. Ian't it reasonable that we can afford to mark goods at closer prices than any other dealers? Don't buy without thinking—investigate our claims. You will find that there is money to be saved in buying furniture "just over the line from high rents and high prices."

Hartford has built a combination chemical engine and hose wagon of the automobile pattern and the thorough tests to which is has been put have proven that the idea is a practical one. Equipped with a powerful engine, this piece of apparatus can make greater speed than horses and can also ascend hills up which it would be impossible for any team to pull a heavy engine. A number of eastern cities are investigating along this line and the automobile fire engine may soon be placed in general use.

REV. LEVI D. BARR, pastor of Friends Church, Third street and Fremont avenue, in cheeing the fourth year of his pastorate yesterday, preached from the words of the Praimist. "What shall I render unto the Lond for all his benefits toward mer I will take the cup of salvation and call upon the name of the Lord."

"I live in the grandest country on the face of the earth." he said, in part—the country of freedom and free men; the home of Washington Lincoin and McKinley; the land of free schools and free institutions; a country that is governed by the people; a land of free speech, of free schools and free churches; a land of aristocrats—that is, the aristocracy of character; a land of liberty and law; a soil that has produced a Franklin, a Fulton and an an office of the people is and speech, of the people; and of the people; and of the people; a land of free schools and free churches; a land of aristocrats—that is, the aristocracy of character; a land of free schools and free churches; a land of aristocrate of character; a land of free schools and free churches; a land of aristocrate of character; a land of free schools and free churches; a land of aristocrate, or that I had learned and forgotten. It comes to me so often when the day is done, and the school or away, and my pupils have used, in mis expectation, and the product of the product of our selfishness and impatience. These hurrying days; these busy, anxious, shrewd, ambitious, strenuous days of ours, are wasted, cruelly wasted, when they snatch away from our hearts' patient and loving duties, the helpfulness of gentleness, and give us fame for love, and gold for kisses. Some day, then, when our hungry souls ask for bread, our gold of selfishness will give us a stone. Life is not such a deep, perplexing, complex problem as the theorists would have us believe—as, indeed, men try to make it. We cannot find its solution in the ponderous tome of the philosophers, the lovestigators, the experimenters. The solution of its simple lessons may not ponderous tome of the philosophers, the investigators, the experimenters. The solution of its simple lessons may not be found on your book shelves. But down deep in the warm, unlettered heart it is written in characters which the blind and the simple may readasweet, plain, easy lesson. And when I have learned this lesson of love brother of mine, our world will be better and richer and happier."

A Doctor Bears Witness

DR. W. E. PRITCHARD, a practicing physician of Los Angeles, in good and regular standing, has been the consulting and advising physician for the Mrs. S. J. Bridge Cancer Cure since the license of Dr. J. C. Aldrich was revoked by the State Board of Medical Examiners.

At the time of the revocation, Dr. Pritchard proffered his services to Mrs. Bridge, and since then has diagnosed each case of cancer which has been taken for treatment, and prescribed the Mrs. Bridge remedy whenever it has been applied. His services have been given without money and without price. He was indignant at the persecution of the operators of this Cancer Cure by the "cthical" doctors, and offered his protection and assistance at a time when it was greatly needed.

He has been a friend in need, and he knows whereof he speaks when he says:
"I saw on the first day when I visited the offices of Mrs. Bridge, sixteen patients gathered together and waiting for treatment. Mrs. Bridge had been interdicted from "practicing medicine without a license," and the license of her associate, Dr. Aldrich, had been revoked. The patients vowed that they would not go to the "ethical" surgeons for treatment, for many of them had tried such treatment and not been benefited. All insisted upon being treated by the Mrs. Bridge remedy.

of them had tried such treatment and not been benefited. All insisted upon being treated by the Mrs. Bridge remedy.

"I diagnosed each case, and have watched its progress from week to week. I am familiar with all the symptoms of Cancer and all the stages towards recovery or the reverse. I CAN SAFELY SAY AS THE RESULT OF MY CLOSE PERSONAL AND PROFESSIONAL OBSERVATION THAT OUT OF THE IMMENSE NUMBER OF SIXTEEN, ALL BUT TWO HAVE BEEN CURED OR ARE ON THE HIGH ROAD TO RECOVERY, AND THAT WHEREVER A CASE HAS BEEN DISCHARGED THE CURE HAS BEEN COMPLETE AND THE MALADY NON-RECURRENT. EVERY CASE PRONOUNCED CURED WAS ABSOLUTELY CURED.

"In the two cases wherein I note exception, the patients were advised by me and by Mrs. Bridge that the disease had burrowed so deeply that cure was impossible, and that treatment would be of no avail except to lessen misery. In each case the patient begged to be treated so that death might be deferred, and the last hours of life made as free from suffering as possible. The treatment did give relief, if no more. Taken in earlier stages it might have saved life as in all the other cases.

"On several occasions I have been consulted by persons afflicted with Cancer, and advised them to undergo treatment by Mrs. Bridge's remedy. I have not only heard that they were cured, but I have investigated myself and been convinced that they were cured. This happened even before my connection with Mrs. Bridge, and I know that this remedy is as wonderful in its results as it is claimed to be."

treated by a number of eminent physicians for chronic catarrhal gastritis and dilatation of the stomach, and obtained no relief. I grew gradually worse, my breathing was so difficult at times that I thought I would die. My heart was in very bad condition from poor circulation and pressure of the dilated stomach. I decided it was only a matter of a very short time with me. I was advised to try Dr. Miles' Nervine and Heart Cure, and before I had finished taking one bottle of the medicine I felt like a new being. I took eight bottles of the medicine, and am entirely cured, for a matter of about \$8.00 in the face of two hundreds spent in the two years before without relief."

USIC AND THE STAGE.

MONDAY, JANUARY 1, 1906.

Leslie Morosco, brother of Oliver Morosco, is in town, and is contemplating a western starring tour in Harry Cottrell's "South Carliny," in which piece he would appear in the character part of the tramp.

It has been several years since young Mr. Morosco made a stay of any length in Los Angeles. As a member of the old Oliver-Leslie company, when striking productions were bringing the Burbank Theater up from the seclusion into which it had been allowed to fall, he did unusually good work. Character comedy has been his "line" since that time. His wife, known to the stage as Leila Shaw, is a capable actress.

Frederick Warde is in Los Angeles Prederick Warde is in Los Angeles and is staying at the Van Nuys. Mr. Warde has forsaken the stage for the lecture platform, and is meeting with success. A feature of his visit is his reunion here with his eld companion in stage work. Louis James. The "James and Ward" productions were a feature a few years ago throughout the West.

The Belasco Theater has completed its new property room, just at the rear of the Casino Theater, and the man-agement is now in possession of unu-sual and novel convenience in that line.

line.

The entrance is very wide, and admits the passage directly onto the stage of a rolling table, or platform, sufficiently large to hold a whole stageful of stuff. Instead of "striking" a scene and piling all the properties up in a corner of the stage—very much to the detriment of speed in changes, the whole scene is "struck" onto the platform, which is rolled out at once into the wide space of the adjoining property room, there to be dismantied and stowed away at justure, while the set-

Harry Cottrell has just sent down from San Francisco the first act of "The Man from the South," which will be produced here, at the play's comple-tion, with John Burton in the princi-

tion, with John Burton in the principal part.

In a letter Cottrell says that he feels it the best work he has ever done, but that the completion of the play will necessarily be slow, as he is very tired, and in ill condition for fast work,

Last year Cottrell wrote no less than six heavy plays—an astounding feat for any play writer, and at the end of his run his nerve force was practically exhausted.

Elleanor Robson, whose dainty and artistic work in "Merely Mary Ann," at the Mason Operahouse, won her so much praise a short time ago, is to have a number of new plays in the coming twelvemonth. The first is to be from the pen of Edmond Rostand, the distinguished French dramatist; the second is a new modern English drama, by Jerome K. Jerome; the third a new comedy by C. M. S. McClellan, author of "Leah Kleschna." In addition to these she will revive Oliver Goldsmith's "She Stoops to Conquer," and give the new comedy which Clyde Fitch has just written for her, called "The Girl Who Has Everything"—a horribly clumsy title, by the way, but let us hope an ugly setting for a real jewel.

As has been announced, Harry Mestayer is busily preparing his offering of "The Lady from the Sea," which will be put on for the first time in this country, according to the best obtainable information, at the Burbank Theater on Wednesday afternoon.

After this production it is Mr. Mestayer's intention to remain in Los Angeles for the balance of the season, producing Bernard Shaw plays and some fbsen drama, if the rights to the Shaw plays can be secured. If not, the actor will go .ack East and rest at his mother's home in New York until spring.

A. W. Sessions has just completed the programme for his Wednesday vespers concert, which will be given at 4 o'clock p.m. at Christ Church. Miss Elizabeth Jordon is to be the solution of the session of

Manfredo Chiaffarelli will recommence his weekly evening concerts at Chutes Theater tonight, offering as a novelty the entire first act of "Carmen," which, he says, has never been done here orchestrally. Other numbers are Verd's "Jeanne d'Arc," Bizet's "Arlisienne" suite and Macbeth's "Love in Idleness."

Chiaffarelli will be the chief musical feature of the floral parade at Pasadena this morning, returning for the matinée at the Chutes.

matinee at the Chutes.

The Belasco management, it is said, is planning a revival of "Old Heidelberg." Nothing that this theater could put on would be more welcome to the old patrons, or more pleasing to new ones, for it stands yet, in its perfect "atmosphere" and winderfully well-adapted characters, as the high tide of Belasco achievement here.

Wedding Bells Lighten Grief of Young Woman.

Great Joy Comes to Victim of Man's Perfidy.

Warning to Others in Her Awful Experience.

When the bells ring out the old year of 1905, a happy new year will be ushered in for a dark-eyed and beautiful bride in Los Angeles. Her marriage, which took place during this holiday season, and which gave her into the keeping of a good man, has changed to life and hope a lovely young creature seemingly

Two short years ago this girl was the victim of a fiendish conjunction of elroumstances and had taken refuge in one of the homes of this city provided for the shelter of unfortunate strice.

With broken heart and murderous intentions toward the man who brought about her despair, she was hidden from her family and friends in this harbor of refuge, and there came to her a blue-cyed baby boy, worse than fatherless.

The girl's story is a familiar one to the heads of such homes in Los Angeles, but its happy ending is cited by them as a significant sign of the times, which may point to a brighter future when helpless victims of sin may not be barred from all the goodness and heauty of happier lives.

The opportunities afforded for the destruction of young girls in the various infamous roachouses about, this city were responsible for the terrible hight to the life of this refined and ducated girl.

AN ACRE

An unlimited certificate of title furnished by the Consolidated Abstract and Title Guarantee Company of San Bernardino, Cal., is given to all purchasers of Chino lands.

Is it any wonder that thoughtful homeseekers are taking advantage of the exceptional opportunities offered in the great wealth-producing acres of the Chino Ranch? Where can similar advantages be obtained for so small an outlay? Where may lands within ninety minutes of Los Angeles and now producing the finest grade of alfalfa, oranges, walnuts, sugar beets and deciduous fruits be purchased for \$75 to \$200 an acre?

Chino is the happy opportunity of the man who contemplates ranching on a large or small scale. Everything that makes for success and independence is at his disposal—rich soil, an amplitude of water, best transportation facilities, eager mar-kets, an Agricultural Experiment Station (a valuable gift,) mild, equable climate, etc., etc.

Don't travel all over Southern California looking for productive land at small prices. See Chino-talk with the happy and prosperous residents - see the living evidences of success on every hand. Chino lands won't always be low-priced. To-day is the time to act. Make an appointment at once to visit the ranch under our auspices. Trains leave daily for Chino from Los Angeles via Southern Pacific at 8:05 a.m. and 5:25 p.m.

For all this week we will offer this remarkable special sale of rockers. Next week and for each week during the month of January we will offer a clearance sale on some other line of superior furniture. These great special sales will be held to clean up our immense stock and make room for the large shipments that will constantly be coming in during the next few weeks.

If you consider the prices on these rockers you will see that they are marked at a mere fraction of their real worth. There is scarcely a house, that has not need for another rocker, and at such prices you cannot afford to overlook this opportunity.

YEAR'S BUILDING ACTIVITY.

REDILANDS. Dec. 31.—In the year just closed, 176 building permits have been issued in Rediands, the estimated cost being \$223,000. This amount does not represent the total outlay, however, as the original estimate was in many instances almost doubled and in nearly every instance increased. The permits asked for ranged from \$80 to \$18,000. The latter figure was the original estimate of a handsome residence erected in the heights. Beside the residences, 174 in all, two large business blocks, one of brick and one of cement, have been erected.

SAN BERNARDINO, Dec. 31.—[Exclusive Dispatch.] Rev. W. P. Elsdon, a prominent Baptist divine of Waterbury. Ct., and Chicago, died at his winter home at Highland last night. Eight years ago, while pastor at Waterbury, he was stricken totally blind, and came here two years ago, building an attractive home at Highland. Six weeks ago he was taken serfously ill, but had recovered, and his death was a great shock to the community. Funeral arrangements are in abeyance pending the arrival of his son, a leading Chicago attorney. He leaves a widow and children, the latter in Chicago and Waterbury. Since coming here deceased had preached in Los Angeles and many other cities of Southern California.

ROOSTER ATTACKS CHILD.
Antonia, the six-year-old daughter of Mr. and Mrs. Juan Martinez, was attacked yesterday afternoon by a rooster, which knocked the child down and the latter in Chicago afternoon by a rooster, which knocked the child down attacked yesterday afternoon by a rooster, which knocked the child down and the latter in the latter in the latter in Chicago and Waterbury. rooster, which knocked the child down and attempted to bury its beak in her eyes. But for the quick arrival of Mrs. Martines the child would have been that the sight of the left eye may be destroyed.

As the little girl was walking across the back yard the rooster suddenly assailed her, throwing its body against her and striking her in the face with its strong wings. She was thrown prostrate, and the savage fowl immediately pounced on her chest and attacked her eyes.

Mrs. Martinez was attracted to the place by the little girl's agonized screams, and kicking the bird off, the fowl then turned upon Mrs. Martines who had to drive it away with a club. The mother then gathered the child into her arms and hurried to a neighbor's, where a message was sent for a spaysician.

Dr. W. H. Mills responded to the call, and found that the fowl, had burried its beak in the child's left eye, taking the little girl's agonized screams, and kicking the bird off, the fowl then turned upon Mrs. Martines who has been given be a message was sent for a spaysician.

Peter Walker, veteran candy maker of this city, died last evening at his home here, aged 50 years, after an illness of several weeks of pneumonia. Three sons and a daughter survive him. The funeral was held under the suspices of the Knights of Pythias and Masons this afternoon.

"MOTHER" GLENN BURIED.

The funeral of Mrs. Mourning Glenn, known throughout the county as "Mother" Glenn, took place this afternoon from the late residence, and was attended by numerous citizens, public officials and civic bodies, the Pioneer Society taking charge of the services, which were conducted by Rev. E. K. Holden of the Congregational Church.

TO ANNOUNCE ENGAGEMENT.

OCEAN PARK.

PIER EXTENSION TALK. OCEAN PARK, Dec. 31.—As the OCEAN PARK, Dec. 31.—As the horseshoe pier nears completion there is a vrenewal of talk relative to its extension several hundred feet seaward. The proposed plan is to construct a wide and strong wharf at the deep-water end. The object of this is to afford a landing place for the coastwise passenger steamers that are to ply north as far as Santa Barbara and south to San Diego.

Great White Fair Sale

Tuesday, January 2nd, 1906, marks the beginning of the SECOND WEEK OF THE GREAT WHITE FAIR SALE. The first week was a pronounced success and affords another striking WHITE FAIR SALE. The first week was a pronounced success and affords another striking example of the Hamburger Habit—for it has become a habit—of giving to the public timely sales of fresh goods FIRST. Other concerns bravely and persistently (to their credit, be it said,) follow the Hamburger lead, and their feeble though praiseworthy efforts serve but to emphasize the Hamburger prestige and pre-eminence as the foremost retailers of trustworthy merchandise in the West.

In addition to the GREAT WHITE FAIR SALES, and with a view of accomplishing in the five business days of the first business week of the year A FULL WEEK'S BUSINESS—SIX DAYS, we have made ultra-radical reductions on thousands of dollars' worth of other merchandise.

For additional store news and sales for the "First Week," see our full page ad in Tuesday's "Times." Meantime, we most heartily extend to every one in Los Angeles—home folks and strangers alike—our best wishes for a
